A Holiday Wish!

Hitherto and Forever,

Peace Profound!

Hallam.

P. P. S.

I have been out of the Numis. bus. since, Feb. 1976, but by freak chance I have become most honoured and pleased to have added to your collection again, the last time if I remember correctly was 1972 or 3. Thank you.

I hope the 94-C/b. you received from me turns out to be con. cen. No. one, when you compare it at the E. A. C. con.

Roger Cohen was a good friend and colleague for years, he signed and inscribed his second ("Book #2") copy for me. He said "#1" went to his mother at the time.

Dear Hallam:

It was delightful to hear from you again and to be updated on what you are now doing. It is always a pleasure to become reacquainted with a person one has known in the past.

The 94 Clb was the second best of the subvarieties on display at the EAC convention. I think it was also probably the second best currently known to exist. Of course, since not all the 1794s out there have been examined for edge lettering, the possibility always exists that a higher grade specimen will turn up, just as a number of lower grade ones have done.

Your work in the cause of Peace is certainly the highest calling imaginable. There is a great deal of movement towards Peace around the world. One looks at places like Cambodia, South Africa, and most dramatically the major reduction in East/West confrontation between the nuclear powers. Of course, there are always countertrends in spots like Yugoslavia. Given the recurrent history of mankind, it is a real act of faith to believe that our species is capable of total and permanent Peace towards each other. I wish you well.

Sincerely,

R. Tettenhorst
